

REMARKS

In the outstanding office action dated May 22, 2003, the Examiner states that the application includes the following inventions: (1) claims 1-24 drawn to a computer comprising a liquid cooling system; (2) claims 25-28 drawn to a liquid cooling system for a power supply; (3) claims 29-30 drawn to a liquid cooling system for a hard drive; (4) claims 31-34 drawn to a liquid cooling system for a CPU; and (5) claim 35 drawn to a liquid cooling system for a computer memory. The Examiner alleges that the enumerated inventions are distinct and thus requires restriction to one invention for substantive examination.

In reply, Applicant elects invention number one (1) drawn to claims 1-24, without traverse. Accordingly, Applicant herein cancels non-elected claims 25-35. Applicant, however, reserves the right to pursue the non-elected claims in related applications without prejudice in respect of the present amendment or otherwise.

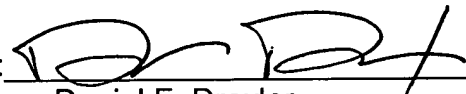

Accordingly, prosecution on the merits is respectfully requested.

It is believed that the foregoing is fully responsive to the present office action and that the claims are allowable to Applicants. Consideration of the application and allowance thereof are respectfully requested.

Please charge any required fees for this response, or otherwise concerning the present application, to Deposit Account No. 06-1130 maintained by Applicant's attorney.
